TONOPAH, NEVADA, MONDAY EVENING, APRIL 29, 1912.

PRICE 10 CENTS.

U. S. TORPEDO BOATS OFF COAST OF MEXICO

END OF TITANIC INVESTIGATION IS NOW IN SIGHT

WASHINGTON, April 29.—Chairman Smith of the investigation committee, announced here today that only a few of the Titanic's passengers would be summoned before the inquisitorial body, as they are anxious to close the hearing quickly and report their findings to congress, hoping to get remedial legislation. Bride, the wireless operator who sent the flashes of distress from the Titanic, arrived this morning. He was accompanied by Mr. Marconi, inventor of the wireless telegraph.

FIND A FORTUNE.

PLAINFIELD, N. J., April 29.—It became known Saturday night that two laborers employed in cutting a street through the farm of United States Senator Martine, near here, found a tin can that contained one thousand dollars in greenbacks.

RICHESON BEGS MERCY.

BOSTON, April 29.—The appeal of Clarence V. T. Richeson, murderer of Avis Linnell, that his sentence to death be commuted to imprisonment for life was made public by Governor Foss Saturday. The appeal is addressed to the governor and the executive council.

THREE BROTHERS COMMITTED TO STATE ASYLUM

Saturday evening William Watson was brought in from Manhattan, charged with insanity. Before the lunacy commission, composed of Drs. Richards and Masterson, and held before District Judge Mark R. Averill, Watson was adjudged insane. The opinion of the experts is that Watson, through the constant worry over his two brothers, who were also committed to the state asylum, caused his mind to fall him. He was taken to Reno this morning by Jailer Deegan.

Sixty days ago a brother, who resided in Goldfield, was afflicted with the disease and later on was committed to an institution at Los Angeles. Shortly thereafter, Joe Watson of Manhattan was brought before the inquisitorial board of Nye county and was sent to the state asylum at Reno, where he died one week ago. The opinion of those who are close friends of the Watson family is that the constant worry over the misfortune of his two brothers caused the mind of William Watson to become unbalanced.

FALLS TO HIS DEATH.

LOS ANGELES, April 29.—John Marlow, aged 75, who recently came to Los Angeles from Indiana, fell 290 feet to his death Saturday, from Manzanita Gate trail on top of Mount Lowe, to the canyon below. Mr. Marlow had become separated from a party of friends, and it was thought, he stepped over the precipice.

Prebel and Perry Arrive at Magdalena Bay --- Cruiser Maryland Takes on Sea Stores for Long Voyage---Will Protect American Lives.

SAN DIEGO, Cal., April 29.—The torpedo boat destroyers Perry and Prebel, which left Honolulu last Friday, are expected to reach Magdalena bay sometime this afternoon where the sealed orders they are carrying will be opened. At the time of this dispatch the destroyers are out of reach by the wireless telegraph.

The big transport Buford, with a human cargo of more than forty companies of troops aboard, are due to arrive late today.

The gravest fears are entertained this afternoon as the result of American intervention for the massacre of the twelve American citizens which took place early yesterday. It is the opinion of many here that if the United States intervenes there will be a generally massacre of every American within the borders of the republic of Mexico. Many of the English subjects and other foreigners arrived this morning on the steamer Benito Juarez. The refugees on board the Benito Juarez, when questioned as to how things looked on the frontier all declare that American citizens were in no immediate danger unless the United States intervenes in the Mexican rebellion. If so, all hope of the Americans now remaining at the frontier, are doomed. The United States cruiser Maryland is today taking on sea stores. This is indicative of a long sea voyage.

THOUSANDS-AWAIT THE ARRIVAL OF THE COFFIN SHIP MACKEY-BENNETT

Panic Feared When Relatives View Distorted Remains—Steamer Is Delayed By Rough Weather.

HALIFAX, April 29.—Thousands of relatives and friends are awaiting the arrival of the "coffin ship" Mackey Bennett. A total of two hundred and twenty-five bodies were found by the Mackey Bennett and the Minia picked up one hundred and eighty. Only one hundred coffins were aboard the Mackey Bennett to accept the remains of those picked up. Many of the bodies found were packed in ice, wrapped in burlap and canvas. These will be placed in coffins when they arrive. Panics are feared when the relatives view the distorted faces of their loved ones who were victims of the Titanic horror. The temporary morgue in the curling rink is now in readiness to receive the corpses. Captain Lardner of the Mackey Bennett, in a wireless message, says he was delayed by the severity of the weather and will probably not arrive before 9 o'clock Tuesday morning.

MINER INSTANTLY KILLED BY CAVE IN RED PLUME STOPE

Unfortunate Man Has Been a Resident of Tonopah for Seven Years--Body Is Horribly Mangled.

This morning at 10 o'clock a cave-in occurred on the 600-foot level at the Red Plume mine, property of the Tonopah Mining company, the result of which J. H. Jones, a miner, met his death instantly. From reports, Jones was leading an ore car on the 600-foot level underneath the large stope when, without warning a large slip from the roof broke and crashed through the timbers. Several timbermen were in the act of putting in stulls throughout the stope when the accident occurred, but fortunately were not caught in the cave-in. A few moments before the shift-boss and a number of miners passed directly under the slip that later broke away from the hanging wall. At that time the ground seemed perfectly safe. The work of rescue was started immediately, it taking about one-half hour to reach the unfortunate miner. He was dead when found. The body was terribly mangled; almost all of the bones were broken, and the left leg nearly severed from the body. Jones has been a resident of Tonopah for the past seven years, most of that time being an employee of the Tonopah Mining company. He had worked in the place where he met his death for several months and was well acquainted with the workings.

MARCONI WIRED CARPATHIA FOR TITANIC NEWS

WASHINGTON, April 29.—Guglielmo Marconi, inventor of the wireless telegraph, was the first wireless called today before the senate investigation committee. He corrected his previous testimony, testifying that he sent the following message to the Carpathia, regarding the Carpathia wireless operator: "Wire news dispatches immediately, or state who certain would not allow sending of news." To this he answered on reply. He produced about telegrams sent in the various coast stations trying them to get information regarding the Titanic disaster quickly.

AVIATOR FALLS 700 FEET AND MAY RECOVER

PARIS, France, April 29.—Aviator Jules Verrière, well known birdman, while trying to create a new record from Douai to Madrid, came near meeting death yesterday afternoon. He was flying at the rate of one hundred miles an hour when the aviator suddenly collapsed. He fell with the machine from a height of seven hundred feet. At the hospital it was found that he had a fractured fracture of the skull at the base and top. The attending physician says he may recover.

GRAND HIGH PRIEST R. A. M. VISITS HERE

Saturday evening Tonopah Chapter, No. 12, Royal Arch Masons, were afforded a most pleasant and instructive official visit from Most Excellent Grand High Priest H. W. Miles of Reno. The Masonic hall was well filled with members of the grand order of Masons to pay honor and respect to their high priest and listen to his words of wisdom and teachings of the order. After the regular session of the lodge had come to a close, the members of the local chapter and visiting brothers banqueted their esteemed high officer in the lodge hall. Several pleasant hours were spent by the members in listening to speeches from the different members. Mr. Miles is at home when he reaches Tonopah and Goldfield, for he was a resident of these cities in the early days and was until recently a prominent and prosperous merchant of Goldfield, recently moving to Reno, where he is engaged in business. He is now paying an official visit to all the chapters of the R. A. M. in this state.

DEMAND INSPECTION.

LIVERPOOL, April 29.—The Liverpool branch of the Seamen's and Firemen's union adopted a resolution Saturday that on and after April 30 the men will refuse to sail on any steamer unless representatives of the union are allowed to inspect the lifeboats.

TONOPAH HIGH WINS TRACK MEET

Saturday afternoon at the Volunteer Firemen's park the Tonopah high school track team defeated the Goldfield high by a score of 58 to 32 points. Tonopah took every first place in the ten events contested, and showed superiority in every department. The result was a revelation to every one concerned and proves Tonopah to be strong. The half-mile race was the first event and was won by Flood of Tonopah, with Brown of Goldfield second and Withers of Goldfield third. Flood ran his usual heady race and when he saw that he had the race, saved himself for the mile event and came in easy, winning by about 50 yards, in two minutes and 28 seconds. The 50, 100 and 220-yard dashes were won by Harrington of Tonopah. The fifty yards was run in 5 2-5 seconds, breaking the high school record. The 100 yards was run in 10 3-5 seconds and the 220-yards in 23 1-5, show that we have a sprinter in Harrington who is as good as the best anywhere. Woodruff took third in the 50-yard dash with only four days' work and showed good material.

Butler, the "big boy," took 22 1-2 points for Tonopah, winning the high jump, the pole vault, the broad jump and the quarter-mile. Pengelly took second in the mile race running about a foot behind Flood for the distance. Harrington, Flood and Butler took 53 points out of the 58. While the honors for high score go to Butler Harrington deserves much credit, for it was his pluck as much as the "big boy's" starting qualities which won the quarter for Tonopah. Harrington jumped to the lead and setting a hundred yard pace, held it till about a hundred and fifty yards from the finish. The Goldfielders took out after him and the "big boy" running his race came from behind and passed them like they were standing still. Much credit is due Prof. Braun for his help in winning the meet. Tonopah having only a few men, had to use them all in many events, and Professor Braun was there to see they didn't stiff, rubbing each man as he finished his event. This meet was for Tonopah and the Tonopah boys take this meager of thanks.

MISS KIND MARRIED TO NEW YORK BUSINESS MAN

The wedding of Mae Ethel Kind and Herbert J. Goldsmith was solemnized at Newark, N. J., last Wednesday. Miss Kind was for a number of years a resident of Tonopah. Mr. Goldsmith is an influential business man of New York. They will make their home at Newark. The Bonanza joins with the great number of friends in wishing them happiness throughout their married life.

Joe Kennison came in from Manhattan this morning.

TONOPAH MOOSE CAPTURE TOWN

Tonopah was captured last night by the excellent and beneficent order which is called the Loyal Order of Moose. From the time that the Goldfield Moose arrived in their special train, which carried over 150 members of the order, to say nothing of their magnificent band, until the first initiation was held, the town was in a most receptive condition, and many who had not joined the order signified their intention of doing so at a later date, because they appreciated the fact that the Loyal Order of Moose is an order which has for its purpose the betterment and uplift of mankind.

Promptly at 8:30, the first class was initiated by the officers of the Goldfield lodge, and the Tonopah members were given an insight into the workings of the order. It perhaps is proper to say that those who learned of the purposes of this fraternal organization were most agreeably surprised and many numbers today have subscribed to the securing of many more members.

The Loyal Order of Moose stands for good, clean and progressive principles of mankind. It has nothing in its ritual or sacred work to which the wife, mother, sister or daughter could object. It is composed of some of the biggest and

best men in the country, and the principles upon which it is founded will last longer than the present day and generation.

Over a hundred and fifty members were initiated in the Tonopah lodge last night, and after the formal ceremonies were completed, short talks were made by the following: Hon. J. A. Sanders, Hon. W. W. Booth, Dictator Clark of the Goldfield lodge, Harry Coogan, Hon. Emmet Walsh, district attorney of Esmeralda county, Elmer E. Ritter of the Tonopah fire department, Jake Goodfriend, the Belasco of Nevada; Judge Foley, the dispenser of justice in Goldfield; Prelate Sweeney of Goldfield; Hon. Walter Shilling, Hon. W. T. Cuddy, one of the county fathers, and others who spoke most appreciatively on the merits of the order.

J. A. Buchanan, who is organizing the Tonopah lodge, today, in an interview, said: "I am most pleased with the results that have been accomplished in Tonopah; when the supreme dictator asked me to put a lodge in Tonopah I told him that I would have one of the best and strongest lodges of Moose in the United States and, judging from the results of last night, I will keep my word with him. I desire at this time to state that I have received the most earnest and active cooperation from the best citizens of Tonopah. I want to particularly designate one man, who has aided me most earnestly. I refer to W. J. Stock. The next meeting will be on May 11 and I expect that a class of 100 will then be taken in. The Moose stands for everything that is good and clean, and no applicant will be accepted whose record is not clean. While Goldfield has a membership of 300, Tonopah should have a membership of at least 100 more, and I may be found either at her office, Room 205 State Bank building, or the Elkhorn hotel."

NAME SOCIALIST TICKET.

COLUMBUS, April 29.—The socialist party of Ohio, in convention here Saturday, nominated a complete state ticket.

CELEBRATES 113 BIRTHDAYS AT WARSAW

ST. PETERSBURG, Russia, April 29.—Seventy-six children and grandchildren gathered at the deathbed of Simon Fij, an old soldier who had just celebrated his 113th birthday, at Warsaw. Fij is said to have been the last survivor of those who could claim to have seen Napoleon Bonaparte.

NEW MANAGER OF COMMONWEALTH MINE PROPERTY

Charles E. Knox, president and general manager of the Montana-Tonopah Mining company, accompanied by Edgar Collins, who recently arrived from South Africa, left this morning for Pierce, Ariz. Mr. Collins who, for a number of years has been connected with the above company, will assume charge of the Commonwealth property at Pierce, which was recently purchased by the Montana-Tonopah company.
